RELICS OF THE MAINE

Distribution of Souvenirs Recovered From Wreck.

DUTY OF JOINT COMMITTEE

Work Performed Under Direction of War and Navy Secretaries.

SUPERVISION BY PRESIDENT

Number of Articles Allotted to Washington—Personal Property Restored.

Having given honorable burial to the victims of the Maine disaster and to the bulk of the personal effects and pieces of equipment saved from the wreck for preservation as relics of an important event in the history of the country. Under the law the distribution of these souvenirs is confined to survivors, relatives of the victims, patriotic organizations and municipalities. It is specially provided that none of the articles so distributed shall be disposed of hereafter without permission of the President. That is done in order to insure that no part of the wrecked vessel shall be sold or exhibited as a means of profit.

The Secretaries of War and Navy were charged with the duty of distributing the relics. Nearly all of them are at the Washington navy yard, having been brought there from Havana by the collector Leonidas and the scout cruiser Birmingham. The Secretaries intrusted the actual distribution to Col. Edward Burr, Corps of Engineers, U. S. A., and Commander Richard H. Leigh, U. S. N. These officers have had the matter under constant study and consideration for several weeks past. It was soon established that the number and character of the relics will be entirely inadequate to meet the flood of applications that have come in from cities, organizations and individuals in all parts of the country. The principal demand was for guns and heavy pieces of ordnance for monumental purposes. Only four small guns were recovered, but there was a large quantity of scrap brass and iron suitable for conversion into tablets and other parts of monuments.

Odd Pieces Only Available.

As a result the applicants, numbering more than 2,000, will have to be content with odd pieces of the ship's equipment—shells and armor, crockery, silverware, etc. The joint committee already has allotted all of the principal relics and the Secretaries of War and Navy have approved its action. By special direction of Congress the steel mainmast of the Maine, with its fighting top, will be erected over the graves of the victims of the disaster in the Arlington national cemetery. Action in that direction is suspended until it is known how much money will be available for the purpose after the Maine cofferdam in Havana harbor shall have been removed.

Also by direction of Congress the after gun of the Maine, with its two ten-inch guns, has been given to the city of Havana and is to be erected as a monument in the principal park of that city. The other turret, with its big guns, was blown overboard by the explosion and now lies deep in the mud of Havana harbor. It has been abandoned. With the exceptions mentioned, the allotment of all the relics of the Maine has been left to the special joint committee. The keen competition for the steel foremast was one of the first articles saved from the wreck during the recent operations. It is now at the headquarters of the Atlantic Division of the army, at Governors Island, N. Y. It is smaller than the mainmast, to be erected at Arlington.

Proposed Monuments.

The city of Key West, Fla., is allotted a big steel turret which was in the turret of the Maine. The city will utilize it in the erection of a monument in one of the parks of that city, a quantity of scrap brass and iron being intended for use as tablets. A monument is to be erected in Pittsburgh, Pa., to the memory of the Maine. The city of New York, N. Y., is allotted a six-inch shell, a rifle and six pieces of chinaware; Maine national monument committee, New York city, forty pounds of bronze and brass scrap; Hamilton Fish Camp, No. 1, U. S. W. V., Washington, D. C., a candlestick; national headquarters, U. S. W. V., New York city, a thousand pounds of bronze and brass scrap; Grand Army Hall, Chicago, Ill., an air-port frame; Army and Navy Club, Manila, P. I., a pair of binoculars.

Rear Admiral F. F. Fletcher, Navy Department, a small shell, cartridge cases and miscellaneous ordnance; Agnes I. Harris, Washington, D. C., a spoon and two pieces of chinaware; Eustace J. Lancaster, Washington, D. C., a six-pounder shell; Walter Jennings Camp, No. 4, U. S. W. V., Washington, D. C., a six-inch shell; Chief Gunner Joseph Hill, U. S. N., a revolver; Lieut. Commander W. T. Cheverius, U. S. N., a rifle; Lieut. Commander D. F. Boyd, U. S. N., four keys, ten pieces of chinaware and a china platter.

Starting Values in PIANOS and PLAYER-PIANOS

During the past month we have taken in trade for Player-Pianos over 100 Upright Pianos, including nearly every well known make.

SUCH AS STEINWAY, CHICKERING, VOSE, FISCHER, KNABE, STIEFF, KIMBALL, WEBER, GABLER, HARDMAN, SHONINGER, BRADBURY, IVERS & POND.

We are placed in the position where we are compelled to sell these instruments at a sacrifice, because we are crowded to such an extent we haven't room to properly display our regular stock.

PRODUCTS OF INDUSTRY AT NATIONAL MUSEUM

Private View of the Handiwork of Thousands of Workers.

Art needlework, wonderful in artistic beauty and in intricacy of delicate design, the product of the skilled fingers and untiring industry of thousands of women everywhere; laces of Mechlin, Point d'Alecon, Flemish and Flanders Point de Rose; Spanish, Italian and French ecclesiastical and secular embroideries; broadened silks and velvets of the seventeenth, eighteenth and early nineteenth century; hand-painted ivory and silk fans and several cases of ecclesiastical Limoges enamels, forming a splendid collection, were displayed at private view yesterday at the National Museum.

Worthy of Note.

Among the pieces especially worthy of note are: Bounce of the love of the artist; a piece of the eighteenth century, loaned by Mrs. Robert R. Hitt; piece of Flemish lace, point d'Angleterre, time of Louis XV, owned by Mrs. Thomas Nelson Page; Flemish collar, bobbin lace, early eighteenth century, loaned by Mrs. Arnold Hague; an especially beautiful piece of early Flemish lace, worked in figures, a man in armor, horse in trap, and a wheeled carriage, loaned by Mrs. John Biddle Porter.

Among the Visitors.

Among those who were at the view were Baroness Chmda, wife of the ambassador from Japan; Mrs. James W. Leabetter, U. S. N.; Capt. Warren Dean, U. S. A.; and the following from the United States Marine Corps: Capt. L. M. Gulick, Capt. A. E. Harding, Capt. H. R. Lay, Capt. P. H. Brown, Maj. W. G. Powell and Maj. W. B. Lemly.

WYNNE FUNERAL TOMORROW.

Late Captain in Marine Corps to Be Buried in Mount Olivet.

The body of Robert Francis Wynne, late captain in the United States Marine Corps, who died Sunday at the home of his father, former Postmaster General Robert P. Wynne, will be buried tomorrow morning in Mount Olivet cemetery.

Services will be held at 10 o'clock at the Catholic Church of the Immaculate Conception and Rev. Eugene F. Connelly will

Get this straight, Men—Prince Albert makes its own class whether you smoke it in a pipe or cigarette!

There's nothing else like it and won't be for a whole lot of years.

It's produced by an exclusive process that Uncle Samuel has tied up with patent rights—the process that takes out the tongue-stinger and leaves pure smokin' joy. We control this process.

Remember this if somebody tries to slip something over on you.

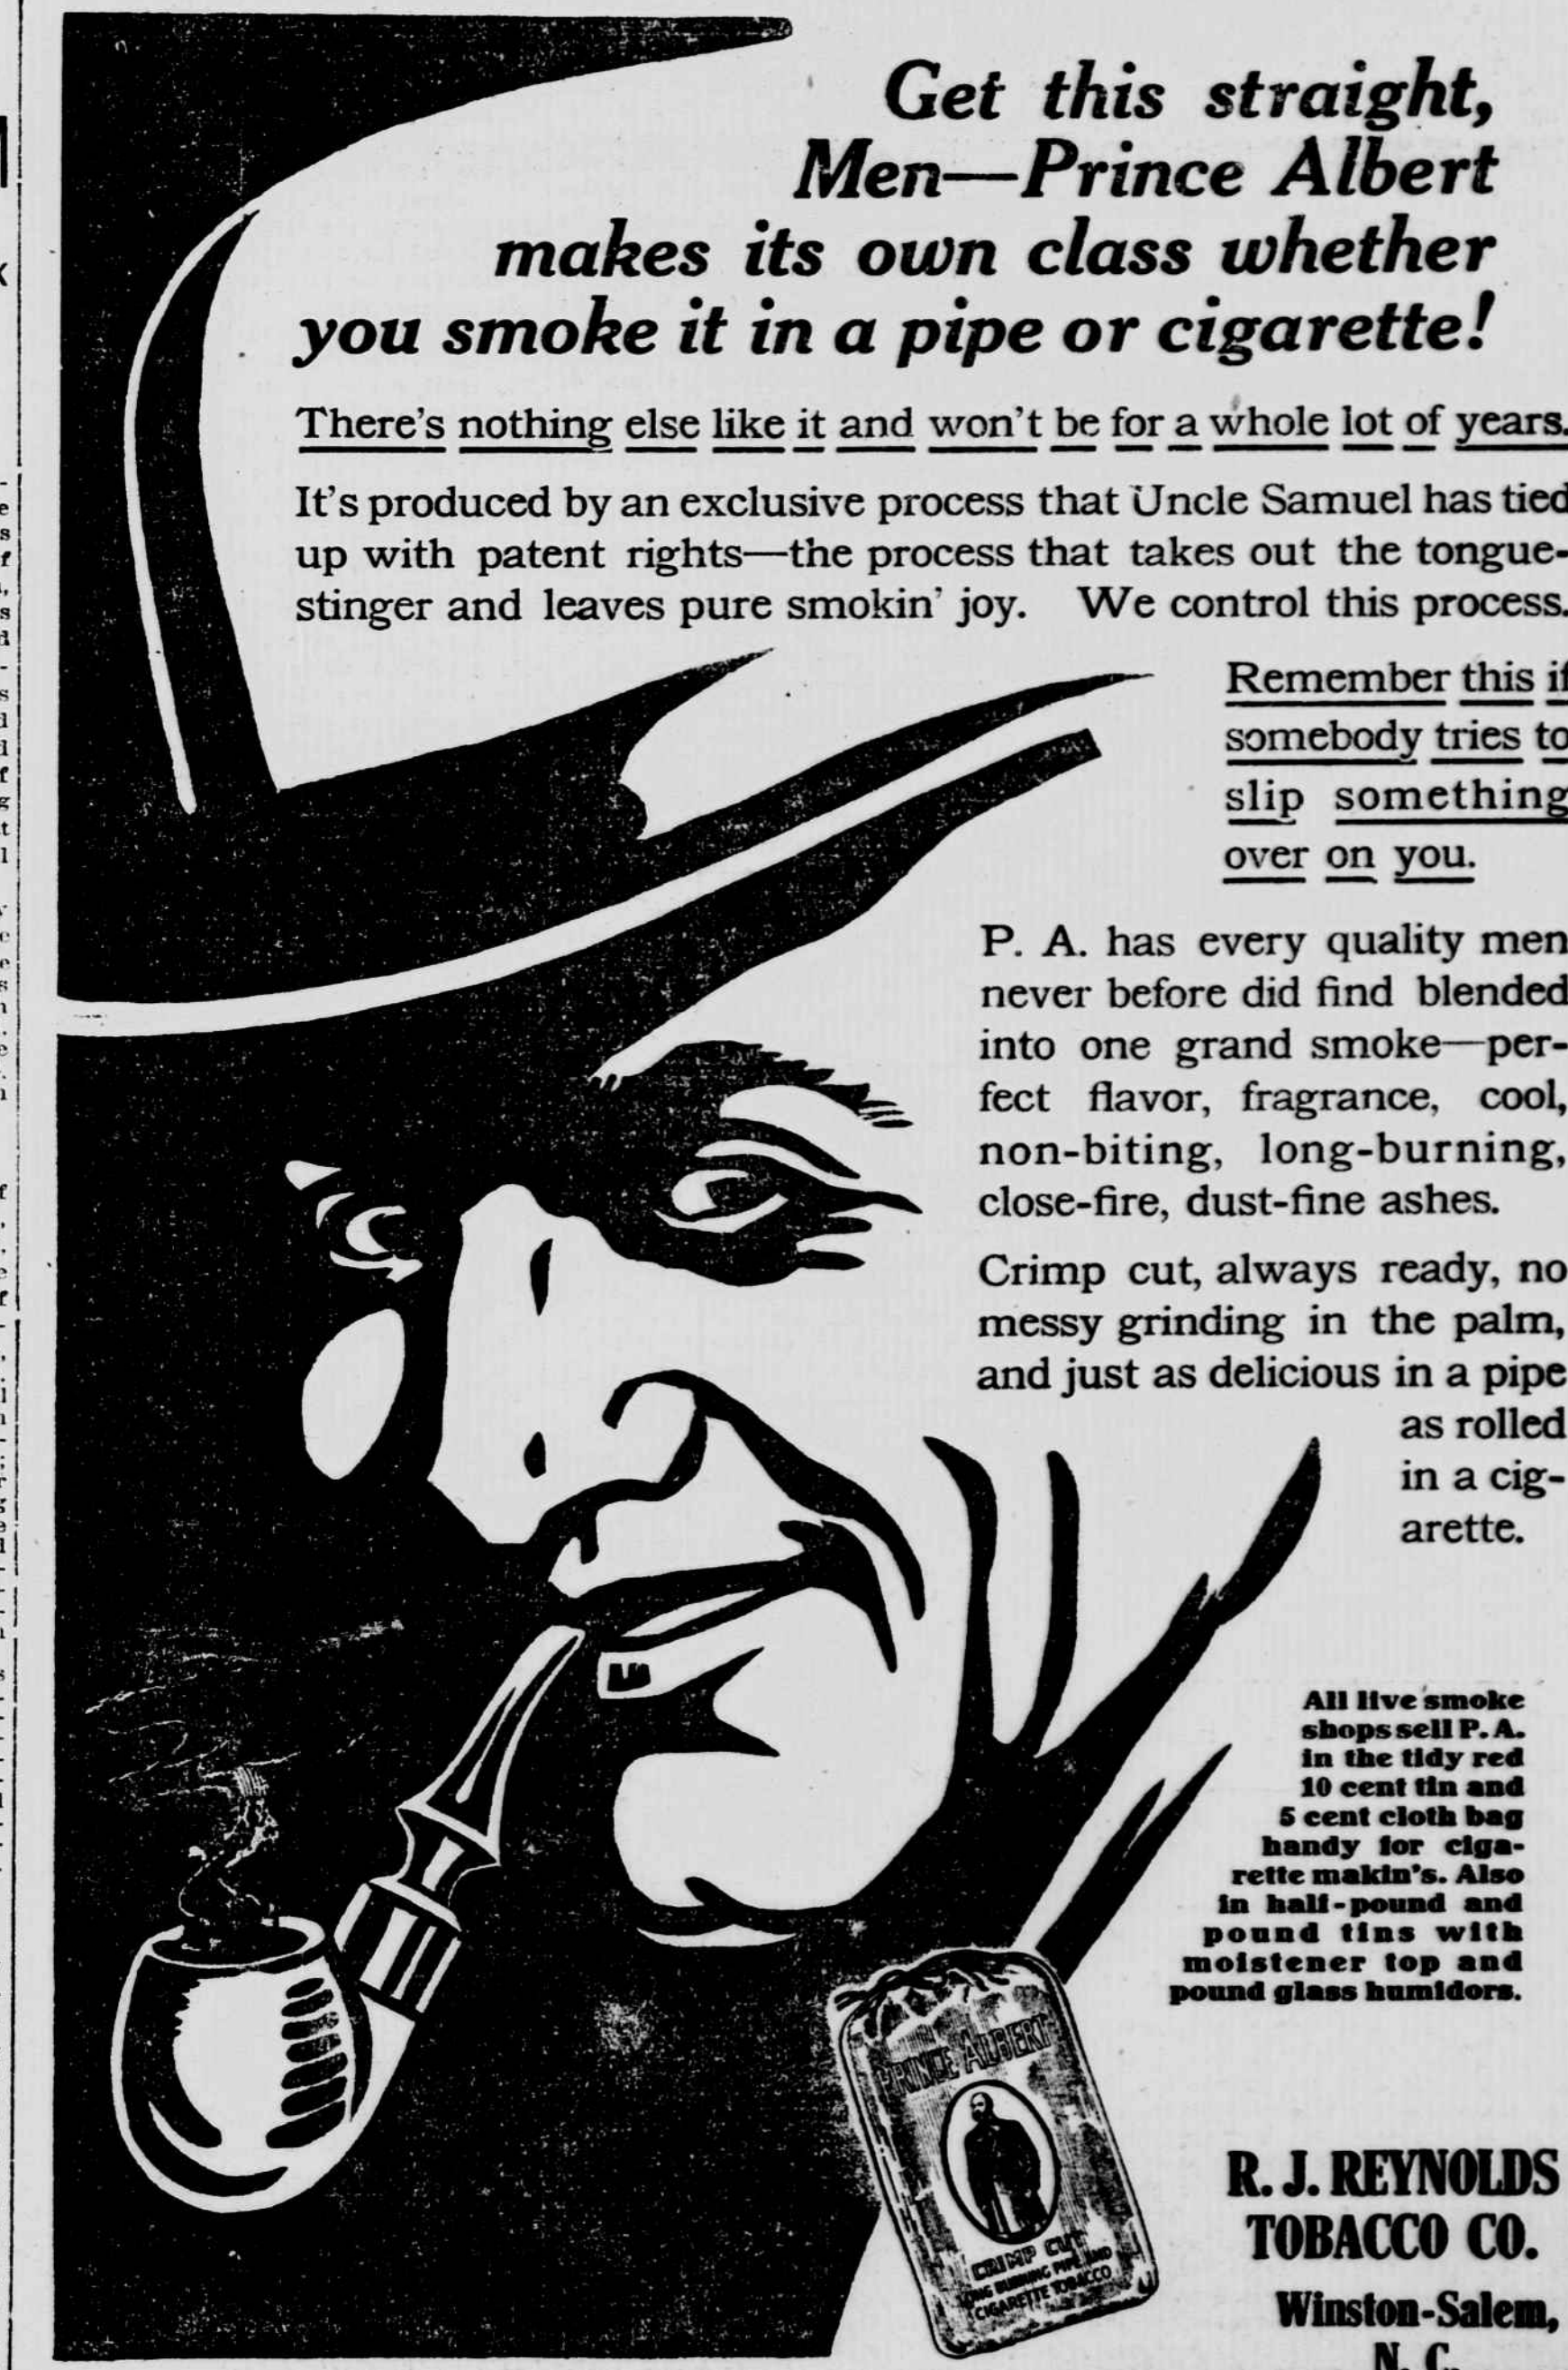

P. A. has every quality men never before did find blended into one grand smoke—perfect flavor, fragrance, cool, non-biting, long-burning, close-fire, dust-fine ashes.

Crimp cut, always ready, no messy grinding in the palm, and just as delicious in a pipe as rolled in a cigarette.

All live smoke shops sell P. A. in the tidy red 10 cent tin and 5 cent cloth bag handy for cigarette making. Also in half-pound and pound tins with moisture top and pound glass humidors.

FAVORS ONE SECTION

Commerce Chamber Committee Reports on Senate Bill.

REGARDS ANACOSTIA FLATS

Approves of Reclamation Proposed, But Will Not Indorse Plan for Payment of Expense.

The subcommittee of the committee on law and legislation of the Chamber of Commerce appointed to consider Senate bill No. 3245 with reference to the condemnation of land for highway and park purposes along the Anacostia river to the District line, and to that end the condemnation and acquisition of land along the river. The committee believes that this is the most important large improvement now presented for settlement in the District of Columbia.

The committee does not feel, however, that the rest of the bill calls for the same or any indorsement.

For Half-and-Half Principle.

Under section 2 the immediate costs and expenses of the condemnation proceedings and payments of amounts awarded as damages are provided to be paid out of the revenues of the District of Columbia, although to be later offset by the benefits when collected. The committee does not feel that there is any reason for departing from the customary half-and-half principle of division between the United States and the District.

SCOTT'S EMULSION

is the near-nature treatment for Consumption.

The power it creates, its purity and wholesomeness are Nature's greatest aid in overcoming disease.

ALL DRUGGISTS

MARRIAGE LICENSES.

Marriage licenses have been issued to the following:

James E. Eggleston and Daisy R. Royall, both of Richmond, Va.

Thomas A. Binao and Elsie R. Pucci, both of Washington, D. C.

William E. Grover and Dora M. Downey, both of Alexandria, Va.

Reuben Griffin of this city and Roxie Hamilton of Brandy Station, Va.

Charles D. Y. Elberts of this city and Estella L. Boswell of Brentwood, Md.

Walter F. Bishop and Ethel M. Suduth, both of Washington, Va.

Arthur W. Rice of Manassas, Va., and Florence M. Naylor of Bull Run, Va.

To Represent Chamber of Commerce.

President James F. Oyster of the Chamber of Commerce today appointed Ralph W. Lee, D. F. Porter and E. C. Graham delegates to represent the chamber at the sixteenth annual meeting of the American Association of Political and Social Science, which will be held in Philadelphia Friday and Saturday. The general topic of the meeting will be "competition and combination in commerce and industry."
